# WELCOME TEAM CAPTAIN!

**Thank you for joining our 2024 Stroll for Epilepsy™ as a Team Captain! You are now part of an inspirational movement to help the nearly 109,000 people living with epilepsy and their families all across Michigan!**

The Epilepsy Foundation of Michigan cannot thank you enough for participating and leading your team at this year's Stroll for Epilepsy™. The Strolls stand as a beacon of hope, bringing together the epilepsy community throughout the state in a united front against the challenges epilepsy presents.

Every year, we see firsthand how the epilepsy community's participation in the Stroll changes the lives of those who otherwise feel isolated and alone.

We are incredibly grateful for your support and your drive to make a real difference. Your dedication and compassion in the fight to end epilepsy is truly commendable.

# ABOUT THE EPILEPSY FOUNDATION OF MICHIGAN

Established in 1948, the [Epilepsy Foundation of Michigan](#) is the only statewide nonprofit organization focusing on epilepsy. The Foundation provides information, resources, and support to help individuals understand and manage epilepsy.

## OUR MISSION

The Epilepsy Foundation of Michigan leads the fight to overcome the challenges of living with epilepsy and to accelerate therapies to stop seizures, find cures, and save lives.

***JUST A FEW WAYS OUR MISSION IS HERE FOR YOU, ALWAYS!***

## HERE FOR YOU HELPLINE **(800) 377-6226**

We provide individualized education and consultation related to epilepsy, including diagnosis, treatment, seizure and epilepsy types, cognitive and mental health challenges, school issues, transition planning, care coordination, and so much more.

## INDIVIDUAL ADVOCACY

We advocate alongside you to help resolve conflicts that you might face, including assistance with IEPs, 504 plans, and implementation of seizure action plans in schools, workplaces, and beyond.

## SEIZURE RECOGNITION AND FIRST AID TRAINING

We provide trainings on epilepsy, seizure recognition and first aid, and rescue medications for any audience. Trainings are conducted in-person, virtually, or on-demand on the Epilepsy Learning Portal.

## CALL AND CONNECT NETWORK

We harness the power of community on these Zoom-based support groups for adults, caregivers, parents, teens, and young adults with epilepsy that provide an opportunity for encouragement, connection, sharing of ideas and experiences.

# WHY WE STROLL + EPILEPSY FACTS

## WHAT IS THE STROLL FOR EPILEPSY™?

The [Stroll for Epilepsy™](#) is an inspirational event that unites the epilepsy community, as we come together to fight stigma, SUDEP, misdiagnosis, treatment gaps, loss of employment, discrimination, isolation, and so much more. Your fundraising efforts for the Stroll benefit the Epilepsy Foundation of Michigan - supporting initiatives on a local level, while increasing much needed epilepsy awareness throughout the state.

## WHAT IS EPILEPSY?

Epilepsy is the general term for a variety of neurological conditions characterized by recurrent unprovoked seizures.

## WHAT IS A SEIZURE?

A seizure is a brief disturbance in the electrical activity of the brain that causes temporary changes in movement, awareness, feelings, behavior, or other bodily functions.

## WHAT CAUSES EPILEPSY?

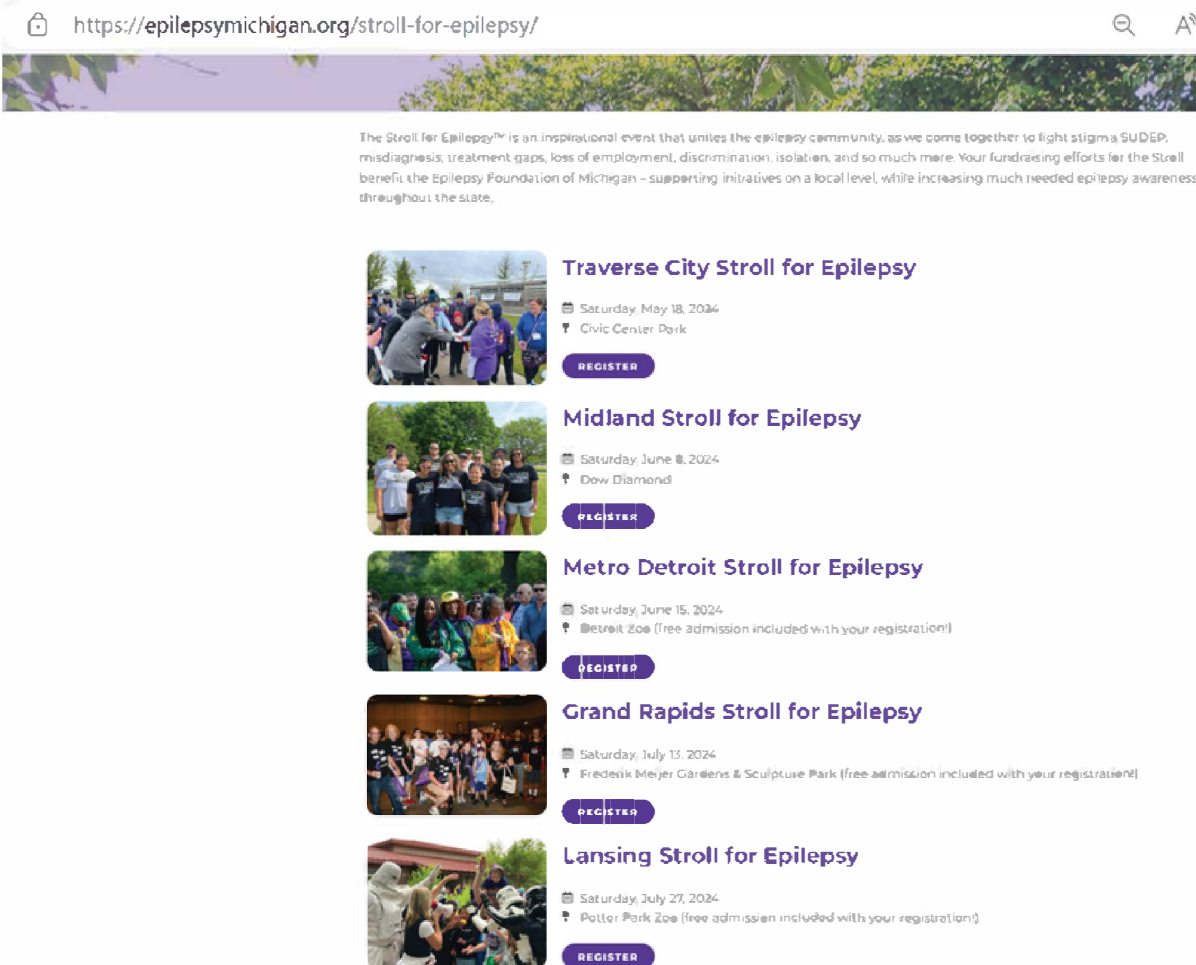

**In about half of epilepsy cases, there is no identifiable cause.** Among the remaining half, causes can be classified as structural, genetic, metabolic, immune, or infection.

## SHOCKING EPILEPSY FACTS

- **1 in 26 people** in the U.S. will develop epilepsy at some point in their lives.
- 1 in 10 people will experience a seizure.
- Nearly 109,000 people in Michigan are living with active epilepsy.
- Epilepsy is the fourth most common neurological disorder in the United States after migraine, stroke, and Alzheimer's disease.
- The number of Americans who have epilepsy is greater than the number who have multiple sclerosis, Parkinson's disease, and cerebral palsy combined.
- Anyone, anywhere, anytime, at any age can have a seizure.

# STROLL IN MEMORY OF A LOVED ONE

SUDEP stands for Sudden Unexpected Death in Epilepsy. In cases of SUDEP, a person with epilepsy dies without warning, and no cause of death can be found. Each year, more than 1 out of 1,000 people with epilepsy die from SUDEP.

The mission of the Epilepsy Foundation of Michigan extends to supporting families who have lost someone to epilepsy-related causes. We are dedicated to educating our community about epilepsy, including SUDEP, and stand with those who have lost loved ones to this condition.

We are honored to walk beside those who have experienced the death of a loved one due to epilepsy-related causes. We welcome you to pay tribute to those lost too soon on our Virtual Remembrance Wall on our website.
